

# STC S5 STORMSHIELD<sup>®</sup> CHIMNEY CAPS

This is the premier chimney cap for solving entry of wind driven rain into a chimney system. It also works well on solving common, wind-related draft problems. Wind problems often occur for homes that have hills, mountains, tall trees or taller buildings in the vicinity.

This cap also functions as a conventional chimney cap by protecting the chimney from rain, snow, debris, and animals.

They are made of Austenitic Stainless Steel T304 and Copper. This model is designed to fit Class A solid pack chimneys and liners. They are equipped with a 1" x 1" stainless steel screen mesh or 1/2" x 1/2" SS screen option (S5).
