VSS[®]TDW[®] TALLBOY[®] VACUSTACK[®] CHIMNEY CAPS

The VACUSTACK TDW TALLBOY Stainless Steel Chimney Caps control and eliminate downdraft and smoking problems caused by wind coming over tall trees, hills, buildings and other structures.

They are available in a flue sizes that range from 4" to 30" inside flue diameters. Lid sizes include 13", 16", 19", 23" and 28" and larger. They help maintain a chimney's optimum performance by keeping out rain, snow, leaves, debris, squirrels, birds and other animals. Standard models include a screen that provides a measure of safety by helping to contain sparks.

Tallboy X15 models include a 15" extended slip collar neck as well as tiedown straps which eliminate liner float. 100% T304 stainless steel construction assures a long life and a rust-free performance.

This model is designed for round, air cooled chimneys, in non-coastal areas. 1" x 1" stainless steel screen mesh and ½" x ½" SS Screen options (S5) are available. T316 stainless models are available for coastal areas. See VSM product model pages.
